PROFESSIONAL SUMMARY

Highly motivated MERN Stack Developer with professional experience in building responsive, scalable, and user-friendly web applications. Skilled in React.js, Next.js, Node.js, Express.js, and MongoDB with a strong focus on clean code and performance optimization. Adept at collaborating with teams, delivering projects on time, and quickly adapting to new technologies.

WORK EXPERIENCE

SOFTON LTD

MAY-2025 - PRESENT

MERN Stack Developer

- Developed full-stack web applications using MERN stack, ensuring responsiveness and optimized performance.
- Implemented complex UI features in React.js and Next.js, improving user engagement.
- Integrated RESTful APIs with secure authentication using JWT.

NETSOL Technologies

SEP 2023 - Nov 2023

MERN Stack Intern

- Contributed to frontend development using React.js, Bootstrap, and CSS3.
- Collaborated with backend developers to integrate APIs and handle data with MongoDB.
- Improved UI/UX design and optimized code for better performance.

SKILLS

Frontend :

React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI

Backend :

Node.js, Express.js, RESTful APIs

Database :

MongoDB, Mongoose

Tools :

Git, GitHub, Postman, VS Code

Other :

Responsive Design, State Management, Problem Solving

PROJECTS

The Cakery

(Next.js, TypeScript, MongoDB, Tailwind CSS, Shadcn)

- Designed and developed a dynamic e-commerce cake store with category-based product listings.
- Built an admin panel for product management, including add/edit/delete functionality.
- Integrated secure payment processing and order handling workflows.
- Implemented image optimization and responsive UI for better performance on mobile devices.
- Enhanced SEO performance using server-side rendering (SSR) in Next.js.

Reputely

(Node.js, Express.js, MongoDB)

- Developed backend APIs for managing user profiles, reviews, and feedback.
- Designed database schemas and implemented indexing for faster queries.
- Integrated authentication and role-based access control.
- Optimized API endpoints, reducing server response time by 30%.
- Collaborated with frontend team to ensure smooth data integration.

NUR International University

(Next.js, Tailwind CSS)

- Built a responsive and accessible university admin dashboard.
- Created multiple dashboard routes with React Query for efficient data fetching and caching.
- Developed reusable UI components to maintain design consistency.
- Integrated dynamic content fetching for events, announcements, and student data.
- Optimized page loading speed and ensured cross-browser compatibility.

Voice-Mart

(React.js, Tailwind CSS, Node.js, MongoDB)

- Built a full-stack marketplace platform for electronics.
- Developed advanced search and filter features for better product discovery.
- Integrated user authentication and profile management.
- Designed responsive UI for seamless experience on mobile and desktop.
- Implemented secure payment and order management system.

Charity Management System

(React.js, Node.js, MongoDB, Bootstrap)

- Developed a system to manage donor records and needy person details.
- Built donation workflows with record-keeping and reporting features.
- Designed a responsive admin dashboard for easy management.
- Integrated data validation and form handling for better user experience.
- Enhanced accessibility and performance through optimized code.
